MOTOTRBO Two-way Radios

WAVE Push-to-talk Communications

Communicator: Mass Notification

Ally Dispatch Management

HIGH-PRIORITY APPLICATIONS

Communicate clearly across campus

Push-to-talk without device, network or geographic boundaries

Notify and mobilize critical groups at moment's notice

Dispatch with public safety pedigree

RESPOND

SOLUTIONS

- Ally Incident & Records Management
- CommandCentral Aware
- P25 Mission-Critical Communications
- Critical Connect
- Access Control for Emergency Response

HIGH-PRIORITY APPLICATIONS

- Streamline incident management and records end-to-end
- Give police eyes on scene in seconds
- Respond rapidly because every second matters
- Make interoperability easy
- Enable immediate first response

The modern incident response
requires the power of our ecosystem.

EVERYDAY CHALLENGES

BULLYING

41%
of students
report being bullied,
and fear it will
happen again.

WEAPONS

16%
of students
admit carrying
a weapon in
public areas.

ALCOHOL

30%
of students
grades 9-12
admit to using
alcohol.

FIGHTING

24%
of students
report having
been in a
physical fight.

VICTIMIZATION

827,000
victimizations
(theft & non-fatal
incidents) are reported
at school by students.*

**Schools should be safe havens for teaching and learning,
free from crime and violence.**

SAFE STUDENT RETURN

Use Case

DETECT

ELEVATED SKIN TEMPERATURE DETECTION

At major entry ways of schools, thermal imaging cameras automatically monitors skin temperatures of students and staff entering the building

ANALYZE

FACE MASK COMPLIANCE ANALYSIS

Compliance reports are run on students in the hallways for wearing masks to evaluate effectiveness of their enforcement campaign

COMMUNICATE

NOTIFICATIONS COMMUNICATED

An elevated temperature is detected and the proper resources are alerted and coordinated

RESPOND

CONTACT TRACING THROUGH APPEARANCE SEARCH

A student has been identified as being COVID 19 positive. Using the image of the student, security operations can evaluate who the student has been in contact with over the past few days while at school to facilitate further testing of students

SAFE STUDENT RETURN

Use Case

DETECT

USE CASE

BULLYING

BULLYING AT SCHOOLS

More than 70% of students and teachers have seen bullying in their schools.

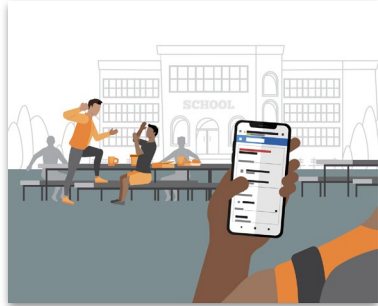

When bystanders intervene, most bullying will stop within 10 seconds.

Only 25% of students who are bullied, will tell an adult.

BULLYING PREVENTION & RESPONSE

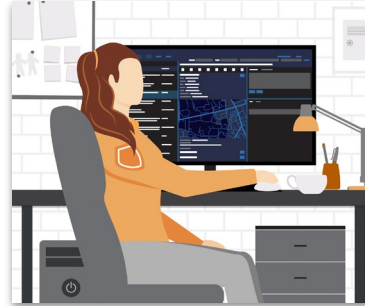

Use Case

DETECT

ANONYMOUS TIP SUBMITTED

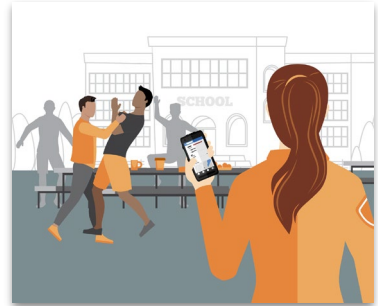

Mobile friendly, multimedia tip sent in, notifying of a bullying situation.

ANALYZE

TIP MANAGER INTERFACE RECEIVES TIP

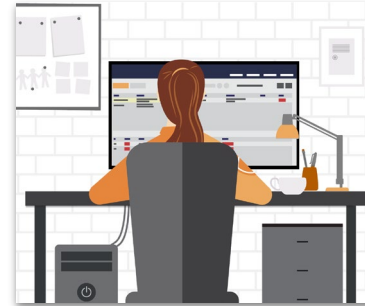

School Resource Officer received and managed the tip via a simple web-based portal.

COMMUNICATE

TIP COMMUNICATED

Tip information sent to School Resource Officer for follow-up.

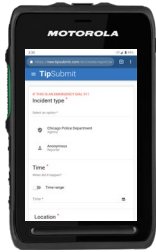

RESPOND

INCIDENT RECORDED

School Resource Officer resolved the bullying and logged incident report.

BULLYING PREVENTION & RESPONSE

PERIMETER ALERT

MAKING EVERY SECOND COUNT

First responders typically respond to a 9-1-1 call within 8 minutes, arriving with minimal information.

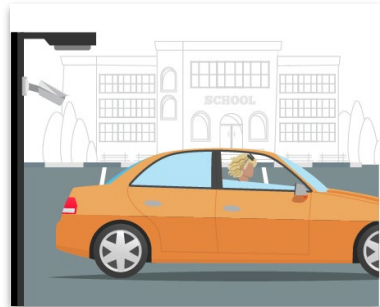

Every moment which enables earlier warning and better information is a moment that counts.

Technologies that help to detect, analyze, communicate and respond can prevent incidents from becoming tragedies.

PERIMETER BREACH

Use Case

DETECT

LICENSE PLATE RECOGNIZED

Suspended student license plate detected entering school grounds.

ANALYZE

APPEARANCE DETECTED

Face analytics-based search detected exiting vehicle and approach school entrance.

COMMUNICATE

NOTIFICATION COMMUNICATED

Alert dispatched to staff across radios and smartphones to lock-down school.

RESPOND

FIRST RESPONSE DISPATCHED

Local police directly informed with video for immediate first response.

“We’ve had a few instances where students did not arrive home on the bus. With the search feature, we were able to easily track the student and determine if they rode home or walked that day. It cut our search time immeasurably and allowed us to follow-up with the parents quickly.

Brian Knight, Principal of Southport High School

MOTOROLA SOLUTIONS

“The system has significantly increased the security of our large building. Coverage of 20 access points to our building is an enormous task for our administrative team. We now have access to respond to all breaches in a moment’s notice. In the past, we may or may not have even known our exterior doors had been breached.”

Kert Boedicker, Principal of Perry Meridian High School

MOTOROLA SOLUTIONS

“We can now search camera feeds in just a few clicks. The time saved helps us respond to or gather information regarding incidents in a much more efficient and timely manner. This technology allows us to be proactive rather than reactive when it comes to school safety.”

Lucas Klipsch, Assistant Principal of Perry Meridian High School

MOTOROLA SOLUTIONS

“When it comes to the safety of our students, we could not have the reliability of our communications system in question. We needed equipment in place that could be counted on during any event, at any time of day.”

Ted Birren, Director of Operations, District 214

MOTOROLA SOLUTIONS

GRANT ASSISTANCE PROGRAM

Motorola Solutions partners with EDUCATIONGRANTSHELP.COM to help you apply for support to make your school safer.

Because the only thing your students should worry about is their next exam.

CUSTOMER GRANT SERVICES PROVIDED

- Dedicated regional grant account manager
- Free grant research
- Free automatic weekly grant alerts
- Free grant consulting from senior grant education experts
- Free grant application and narrative help
- 50% discount - complete grant writing services
(if requested/needed)

WHAT IT MEANS TO BE A SAFER SCHOOL

- 1 THRIVE** IN A SAFETY-FOCUSED ENVIRONMENT
- 2 FOCUS** ON EDUCATING THE NEXT GENERATION
- 3 ATTRACT** FAMILIES & CREATE A COMMUNITY
- 4 RECRUIT** & RETAIN THE BEST TEACHERS & FACULTY

MOTOROLA SOLUTIONS

A close-up photograph of a child's hands, heavily smeared with various colors of paint (red, blue, green, yellow, purple). The child is holding a paintbrush in their right hand and a paint palette in their left. The background is a blurred light blue shirt. The text is centered over the image.

DETAILED SOLUTIONS

MOTOROLA SOLUTIONS

SERVICES FOR THE ENTIRE ECOSYSTEM

PEAK PERFORMANCE FOR YOUR RADIOS, CAMERAS, ACCESS CONTROL AND SOFTWARE

TECHNICAL SUPPORT

Dedicated experts leverage knowledge base and diagnostics to effectively troubleshoot and promptly resolve technical issues.

REPAIR/REPLACEMENT

Diagnostics equipment, repair tools and replacement parts ensure system components are protected from normal wear and tear.

SOFTWARE UPDATES

Certified and pre-tested software updates ensure continuous security, extended performance and enhanced functionality of your system.

DETECT

SOLUTIONS

TipSubmit

Video Security

License Plate Recognition

Watch List Alerting

Access Control

Radio Alert

HIGH-PRIORITY APPLICATIONS

Empower students to help protect their community

Deter antisocial behavior and create high visibility across campus

Monitor and identify authorized and unauthorized vehicles

Establish facial alert lists and awareness of known individuals

Protect ingress / egress points and tighten visitor management

Instantly share video analytics and access control alerts

TIPSUBMIT

EMPOWER STUDENTS TO HELP PROTECT THEIR COMMUNITY

SUBMIT A TIP FROM ANY DEVICE

Enable students to “say something” at any time from their laptop or smartphone via a web-based form.

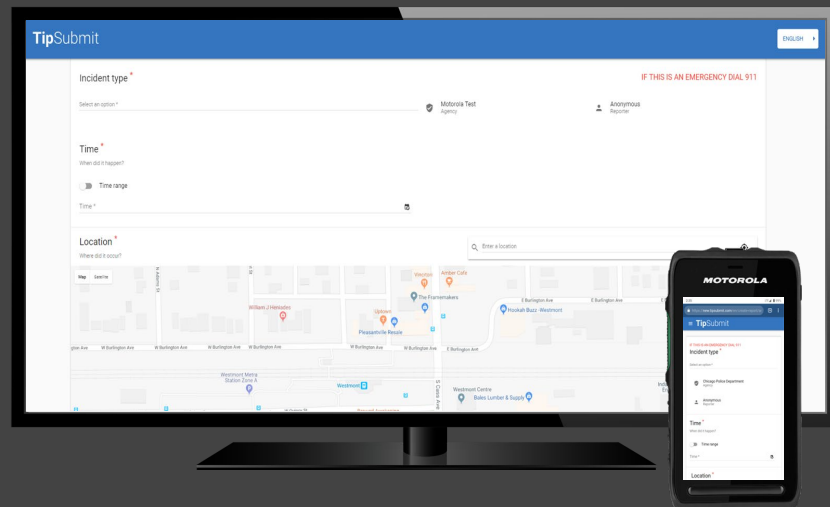

CAPTURE CRITICAL CONTEXT

Gather information-rich multimedia with up to five 100Mb attachments per tip.

GUARANTEE CONFIDENTIALITY

Alleviate fear of retribution and maintain personal safety with completely anonymous tip submissions.

VIDEO SECURITY

DETER ANTISOCIAL BEHAVIOR & ENHANCE VISIBILITY ACROSS CAMPUS

USE THE RIGHT CAMERA FOR THE RIGHT ENVIRONMENT

Create a safe and secure environment with cameras for every location - fisheye for classrooms, multisensor for hallways, high definition for parking lots.

VERIFY VISITOR IDENTITY AND AUTHORIZE ACCESS

Quickly and easily identify a visitor before remotely granting access with a video intercom system that allows clear viewing and two-way communication.

SEE MORE IN THE DARK

Capture critical details in low light environments with IR and LightCatcher™ technologies to see clearly in any situation.

WATCHLIST ALERTING

ACCELERATE RESPONSE TIMES BY IDENTIFYING PEOPLE OF INTEREST IN REAL-TIME

WATCHLIST CREATION

Identify people of interest based on a secure, controlled watch list created and maintained by authorized users at the school.

APPEARANCE ALERTS

Avigilon cameras licensed for facial recognition seek to identify potential matches based on the reference images in the watchlist. Potential matches alert Operators within the ACC software.

FOCUS OF ATTENTION NOTIFICATIONS

Appearance alerts manifest through the Focus of Attention interface, giving Operators important minutes to quickly determine if further action is necessary.

ACCESS CONTROL MANAGER

PROTECT INGRESS/EGRESS POINTS & TIGHTEN VISITOR MANAGEMENT

PROTECT PEOPLE, PROPERTY & ASSETS

Manage staff, student and visitor access to buildings or restricted areas on a school ground using a role-based system.

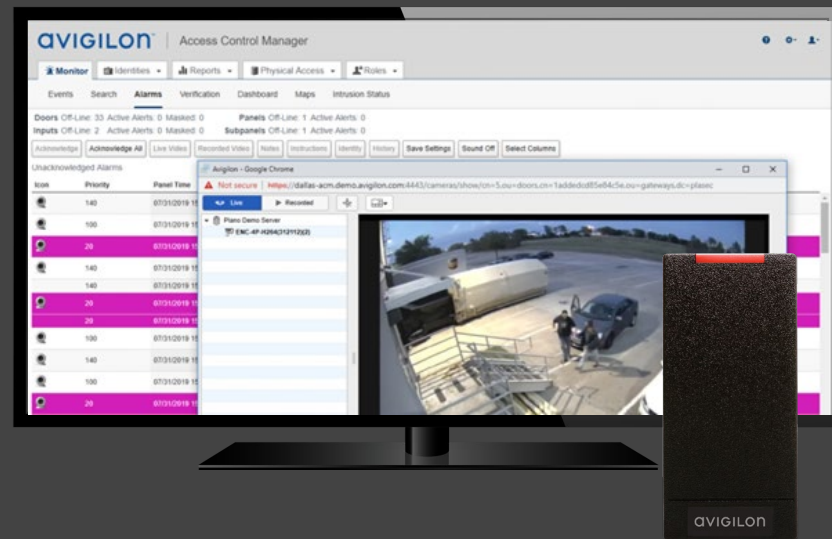

MANAGE SECURITY IN ONE PLACE

Instantly detect someone at an access control point and verify the situation with camera views on a unified, easy-to-use system.

STAY INFORMED WITH THE INFORMATION YOU NEED

Create custom email notifications to track irregular activities, ensuring you can react to situations as quickly as possible.

RADIO ALERT

INSTANTLY RECEIVE VIDEO ANALYTIC AND ACCESS CONTROL ALERTS

CONNECT WITH CRITICAL SENSORS

Trigger critical alerts directly to your radio – including license plate recognition, door breaches, loitering or presence detection.

ALERT UNUSUAL EVENTS PROACTIVELY

Automatically dispatch alert information directly to your MOTOTRBO radios via text message and/or text-to-voice alerts.

REINVEST SAVINGS IN BROADER SAFETY SECURITY

Eliminate or reduce requirements for large-scale video walls with intelligent sensor-based alerts monitoring activity and focusing response.

Suspended student vehicle in parking lot.

ANALYZE

SOLUTIONS

Appearance Search

Identity Search

Unusual Motion Detection

Focus of Attention

Self-Learning Video Analytics

HIGH-PRIORITY APPLICATIONS

Find who you're looking for, faster

Intelligently integrate ID badges with the power of video

Reveal atypical events which may need investigating

Highlight events that require action

Flag after-hours or prohibited loitering

APPEARANCE SEARCH

FIND WHO YOU'RE LOOKING FOR FASTER

SEARCH USING PHYSICAL DESCRIPTIONS

Quickly initiate a search for a person by specific physical descriptions such as clothing color, gender or age.

SEARCH USING FACE ANALYTICS

Incorporate the characteristics of a person's face to search for the same person throughout hours of footage, even if external articles change.

BUILD A STORY

Use playback, bookmark and export tools to compile a robust video narrative of events and improve incident response times.

IDENTITY SEARCH

INTELLIGENTLY INTEGRATE ID BADGES WITH THE POWER OF VIDEO

MAP PERSONNEL MOVEMENT ON-SITE

Quickly search for a person using his or her access control credentials and map their movement throughout a premises via his or her scanned door badge activity.

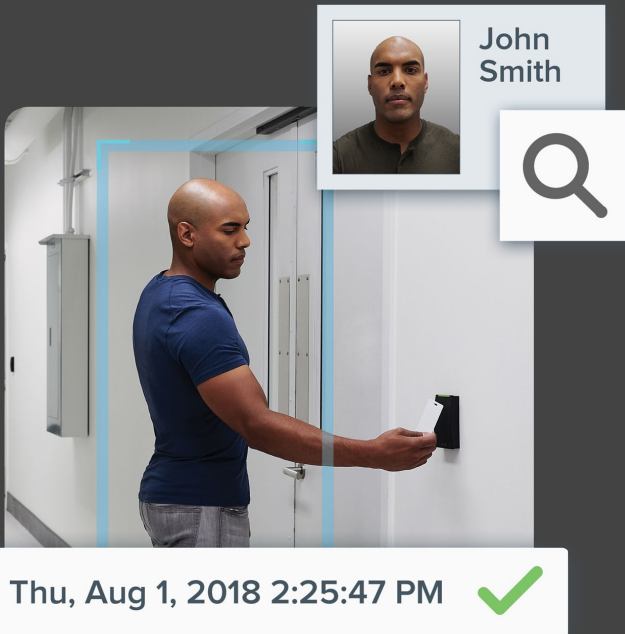

VISUALLY RETRACE A PERSON'S MOVEMENT

Correlate scanned door badge activity with linked video feeds to run an appearance search and find a person's last known location in a premises.

EASILY NAVIGATE VIDEO AND ACCESS CONTROL EVENTS

Monitor and manage access control events and related video within the same dashboard for a streamlined workflow.

UNUSUAL MOTION DETECTION

REVEAL ATYPICAL EVENTS WHICH MAY NEED INVESTIGATING

TURN UNKNOWN INTO INSIGHTS

Leverage AI to learn typical campus activities in a scene to automatically detect and flag unusual motion that may otherwise be missed.

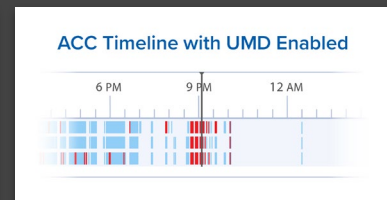

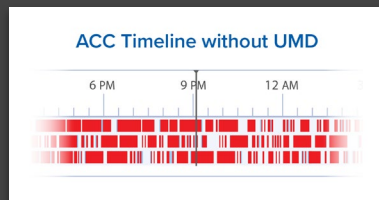

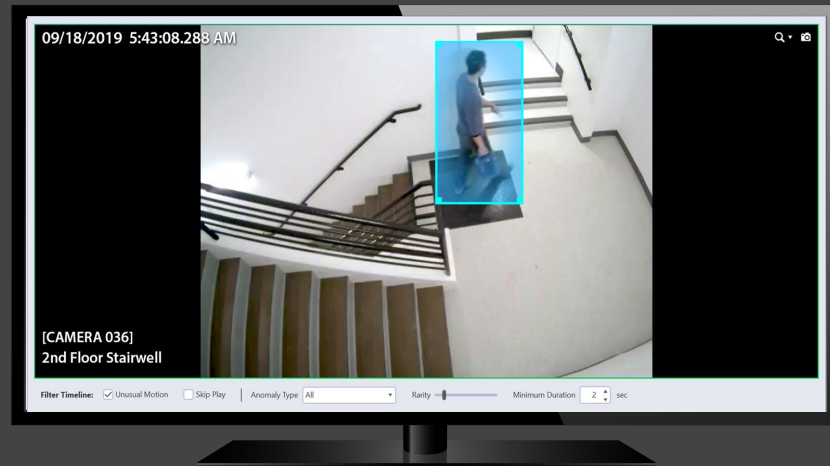

MONITOR UNUSUAL EVENTS EFFICIENTLY

Select an anomaly type - location, direction, speed, absence or all - to filter through hours of videos in minutes and detect unusual motion.

QUICKLY DEPLOY ADVANCED VIDEO ANALYTICS

Easily identify unusual motion with analytics that continuously learn a scene's "usual motion", without the need to set up predefined rules.

FOCUS OF ATTENTION

HIGHLIGHT EVENTS THAT REQUIRE ACTION

MONITOR LIVE VIDEO INTELLIGENTLY

Intelligently monitor live video to illuminate potentially critical video activities with color-coded hexagons to easily see where action is required.

FOCUS YOUR ATTENTION ON WHAT'S IMPORTANT

Leverage AI to find anomalies in video and accelerate the process of identifying the information you should review.

GIVE BACK TIME TO YOUR SECURITY STAFF

Give back time to security staff with analytics that extend personnel efficiency by bringing focus to detection, so they can focus on taking action.

No Motion

Motion Detected

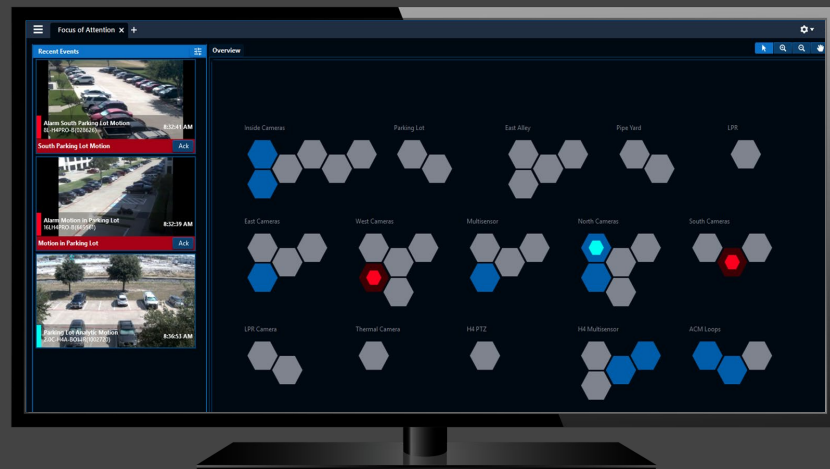

Analytic Event

Alarm

Camera Down

SELF-LEARNING VIDEO ANALYTICS

FLAG AFTER-HOURS OR PROHIBITED LOITERING

DETECT PROHIBITED LOITERING

Detect a person or vehicle in a specified area for an extended period of time to enable immediate response.

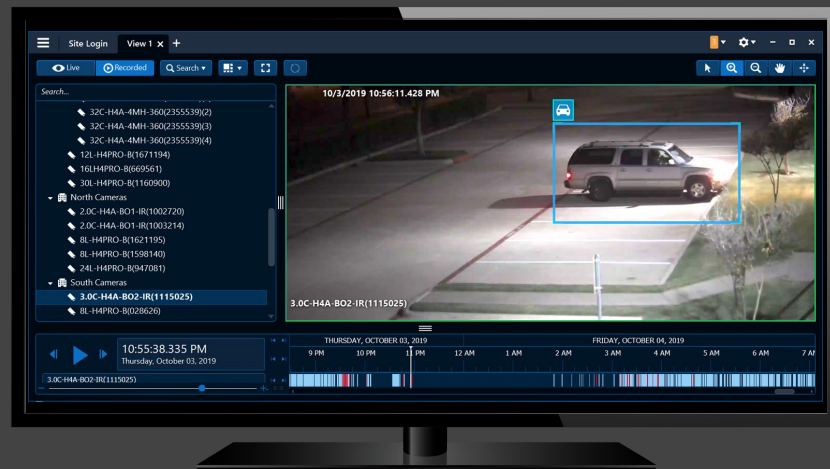

REDUCE VANDALISM AND THEFT

Define analytics rules to receive real-time notifications when a person or vehicle enters a perimeter after-hours.

ENABLE 24/7 SECURITY

Leverage the power of analytics to monitor school properties and have the peace of mind your school is covered 24/7.

COMMUNICATE

SOLUTIONS

MOTOTRBO Two-way Radios

WAVE Push-to-talk Communications

Communicator: Mass Notification

Ally Dispatch Management

HIGH-PRIORITY APPLICATIONS

Communicate clearly across campus

Push-to-talk without device, network or geographic boundaries

Notify and mobilize critical groups at moment's notice

Dispatch with public safety pedigree

MOTOTRBO COMMUNICATIONS

COMMUNICATE CLEARLY ACROSS CAMPUS

COMMUNICATE LOUD AND CLEAR

Connect your team with rugged two-way radios that deliver superior voice clarity, outstanding range and long battery life so they can hear and be heard, loud and clear.

KEEP YOUR SCHOOL CONNECTED

Assure seamless communication between school staff and with other schools in your district when daily incidents, such as bus reroutes, or emergencies arise.

CREATE CONFIDENCE IN YOUR COMMUNITY

Assure staff, parents and community members that your school has direct communications everyday to create a safer, secure environment for students and staff.

WAVE PUSH-TO-TALK COMMUNICATIONS

PUSH-TO-TALK WITHOUT DEVICE, NETWORK OR GEOGRAPHIC BOUNDARIES

COMMUNICATE INSTANTLY

Extend your radio system's reach to those who don't carry radios, connecting to smartphones, tablets, laptops and even land-lines.

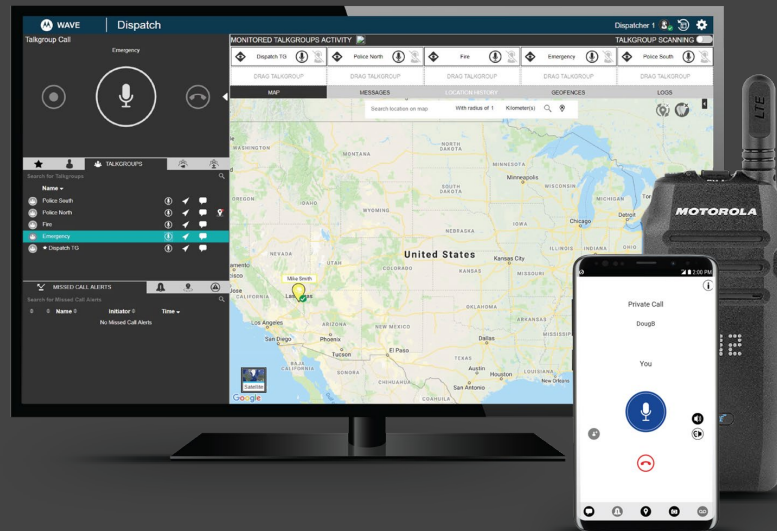

ENHANCE SITUATIONAL AWARENESS

Get the speed and simplicity of professional radio PTT communication with the ability to share details via text, photo, video or file attachment.

MAP LOCATIONS

See presence and location of other WAVE users in real-time to better plan your response.

COMMUNICATOR: MASS NOTIFICATION

NOTIFY AND MOBILIZE CRITICAL GROUPS AT A MOMENT'S NOTICE

SHARE CRITICAL INFORMATION EASILY

Notify your teams instantly of inclement weather delays, violence and drills, by text, email or voice message, from laptops or smartphones.

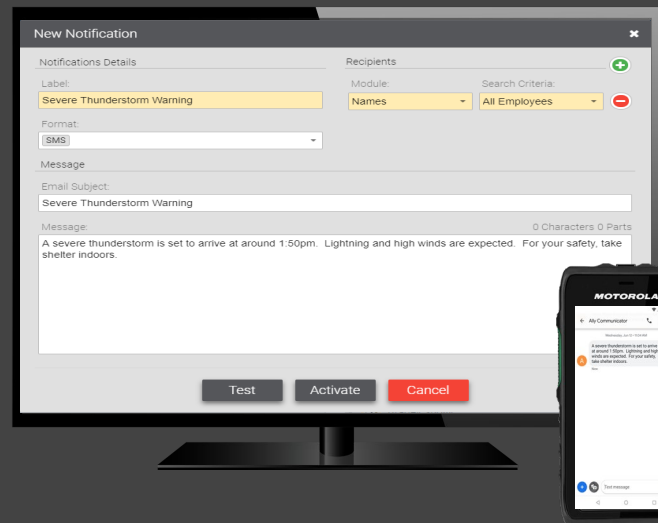

PROTECT PEOPLE AND ASSETS

Automate emergency and routine communications, and quickly provide situational facts or instructions to protect people and assets.

PROTECT YOUR COMMUNICATIONS

Deliver the peace of mind your information and operations are secure with advanced encryption and a multi-tiered architecture.

BACK

ALLY DISPATCH MANAGEMENT

DISPATCH WITH PUBLIC SAFETY PEDIGREE

DISPATCH RESOURCES

Simplify and standardize your dispatch process and workflow with a dashboard view of assigned or pending calls, and available units.

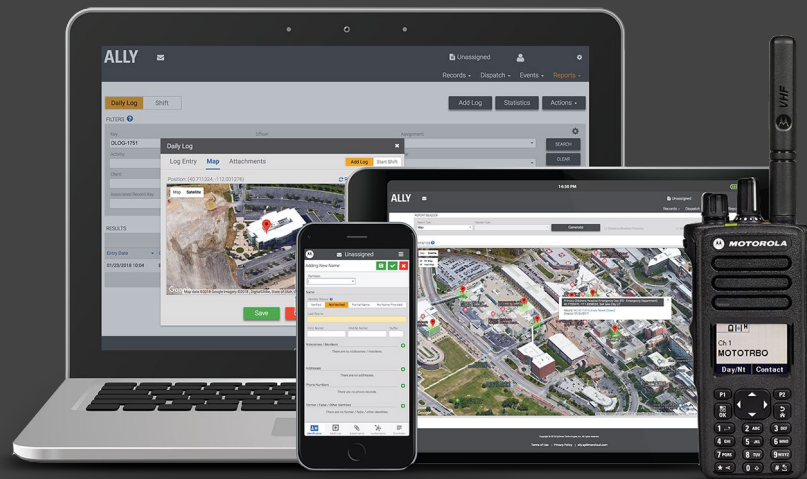

COMMUNICATE INSTANTLY ACROSS DEVICES

Keep your team in touch across different devices, networks and locations, sending private or group calls to all users across all devices.

TRACK STAFF LOCATION

Know your security staff's locations when using WAVE enabled two-way radios and smartphones.

RESPOND

SOLUTIONS

- Ally Incident & Records Management
- CommandCentral Aware
- P25 Mission-Critical Communications
- Critical Connect
- Access Control for Emergency Response

HIGH-PRIORITY APPLICATIONS

- Streamline incident management and records end-to-end
- Give police eyes on scene in seconds
- Respond rapidly because every second matters
- Make interoperability easy
- Enable immediate first response

ALLY INCIDENT & RECORDS MANAGEMENT

STREAMLINE INCIDENT MANAGEMENT AND RECORDS END-TO-END

MANAGE INCIDENT RECORDS

Enhance incident and records management with multimedia attachments, accessible from web-enabled devices and easily shared with personnel.

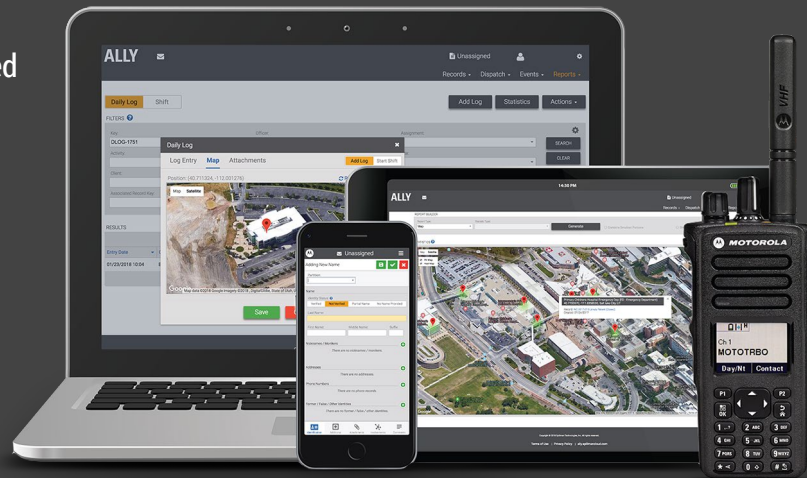

CUSTOMIZE YOUR RECORDS

Customize fields, drop down menus, reports and logos to match your school's needs to consistently collect the right data.

MAKE PROACTIVE PLANNING DECISIONS

Enhance decision-making through analytics and reports for fast trend analysis, proactive security planning and reduced liability.

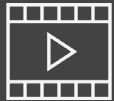

COMMANDCENTRAL AWARE

GIVE POLICE EYES ON SCENE IN SECONDS

CONNECT WITH LOCAL LAW ENFORCEMENT

Create a direct connection between your school and local police so they're familiar with your campus, technologies and security practices.

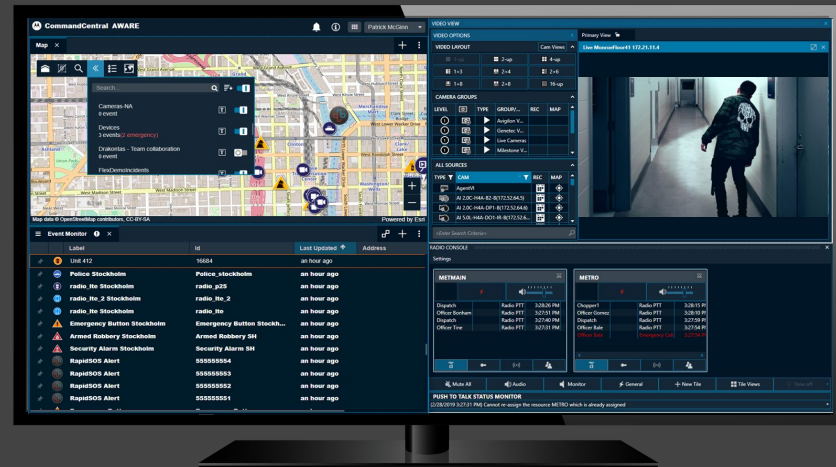

GIVE VISIBILITY THROUGH REAL-TIME VIDEO

Enable access to your school's video feeds so local police can see what's happening in real-time.

INFORM RESPONSE TO ESCALATING INCIDENTS

Inform first responders with rich video information to plan action even before they arrive on scene to an escalating incident.

P25 MISSION-CRITICAL COMMUNICATIONS

RESPOND RAPIDLY BECAUSE EVERY SECOND MATTERS

ENSURE INTEROPERABILITY WHEN YOU NEED IT THE MOST

Interconnect your School Resource Officer with local law enforcement seamlessly, because coordination without communication is chaos.

KEEP YOUR SCHOOL CONNECTED

Assure seamless communication with local law enforcement with mission-critical two-way radios designed to withstand extreme weather and other major events.

CREATE CONFIDENCE IN YOUR COMMUNITY

Assure staff, parents and community members that your school has direct communication with local law enforcement to get help when it matters most.

CRITICAL CONNECT

MAKE INTEROPERABILITY EASY

COMMUNICATE WITH LOCAL LAW ENFORCEMENT

Enable secure and reliable communication between first responders on P25 radios and school personnel on MOTOTRBO radios or smartphones.

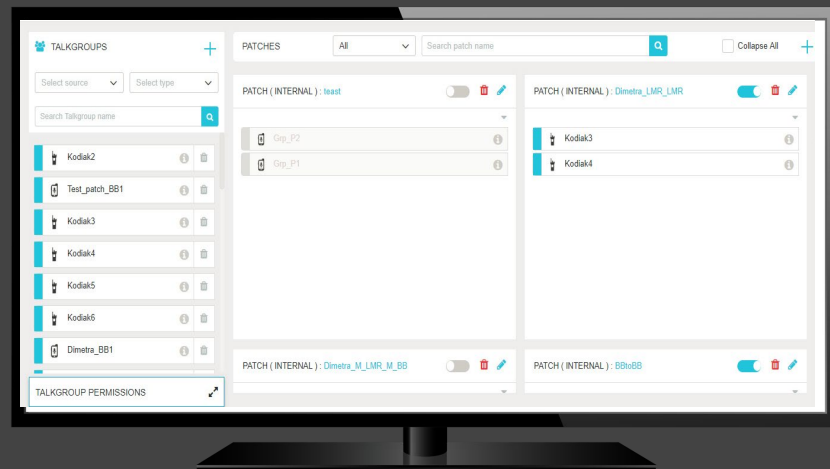

IMPROVE COORDINATION IN MAJOR INCIDENTS

Dynamically create talkgroup teams to communicate with each other in real-time and enhance situational awareness.

CONNECT BEYOND YOUR TWO-WAY RADIO NETWORK

Connect two-way radios and smartphones with one link, providing dynamic, seamless communication whenever and wherever it is needed.

ACCESS CONTROL FOR EMERGENCY RESPONSE

ENABLE IMMEDIATE FIRST RESPONSE

LOCK-DOWN IMMEDIATELY

Create rule-based actions and notifications to remotely lock-down doors when you need an immediate on-campus response.

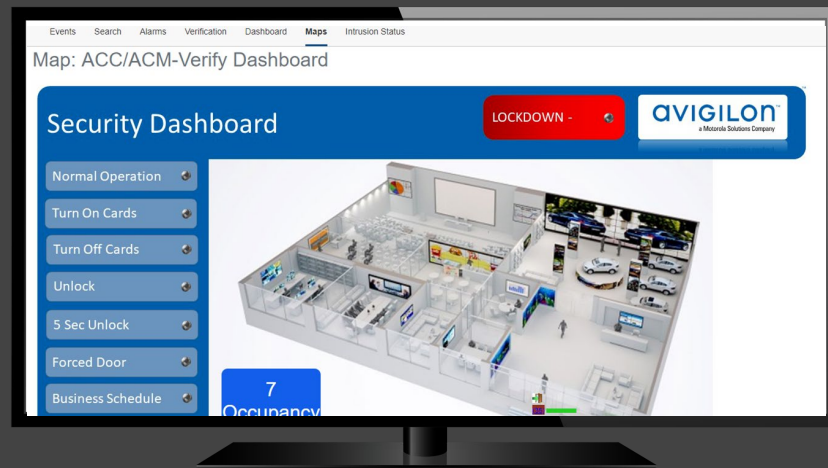

MANAGE INGRESS AND EGRESS ANYTIME, ANYWHERE

Manage all ingress and egress points, with full access from any workstation, including mobile devices.

TRACK STAFF AND STUDENT LOCATION

Keep track of swipe-card usage to monitor people movement in and out of designated emergency areas and get real-time location information.

A woman with long dark hair and glasses is shown in profile, reading a book. She is wearing a white top with a purple pattern. The background is a blurred library with many bookshelves filled with books. The text "THANK YOU" is centered in the image, flanked by two short orange horizontal lines.

THANK YOU
